THE NING HAND!

School days are here---and as usual we're "on deck" with the smartest line of togs for young men.

It's a specialty with us---we take the initiative in bringing the garments of the better class into this community. Suits and Overcoats that appeal to the young chap in every particular.

More care than usual has been used in choosing the apparel we have selected this season--awaiting the approval of the most critical and discriminating.

FABRICS of unusual design and character.

Nobby tweeds, from Scotland; and homespuns, unfinished worsteds, and smart cheviot mixtures from England and America.

STYLES .-- extreme with all the "collegy" requisites, or more conservative with those distinguished lines of refinement so characteristic of our clothing in

PRICES .-- unquestionably the lowest --- are no criterion of their real value.

Popularity is inspiring to say the least-and the popularity of our clothing gaining more and more with each succeeding year, only drives us to greater effort than would otherwise be necessary to maintain our standard.

We hold the winning hand!
